The mental Universe

Richard Conn Henry, article published in the journal *Nature*, July 6. 2005

Available online at <https://www.nature.com/articles/436029a>

Physics Is Pointing Inexorably to Mind

Bernardo Kastrup, blog on Scientific American website, 2019, available at <https://blogs.scientificamerican.com/observations/physics-is-pointing-inexorably-to-mind/>

I also used various quotations of Schrödinger and Heisenberg shared with me by an acquaintance, Dr. Laurance Doyle of the SETI Institute.

I got a few quotes from Wikipedia.

And then just a number of small items from various articles over the years.
