

Travel Photography

Eric Hatch

Basic Principles

Capture the spirit of the place

Capture the scenery

Capture people who typify the culture

Capture the architecture

Take iconic pictures, but don't shoot clichés (a good reason to avoid tours)

Tell a story!

Purposes of Travel Photography

1. Personal memories
 2. To attract others to travel there
 3. To document the place
-

You can capture a place in three pictures! (of course, more is better)

1 Scenic

1 Portrait

1 Architecture or Iconic picture

One iconic image

One action or scenic

One People Shot (well, sort of in this case)
